## Check Out All The Things You'll Learn

How will the Emerging Technologies Track launch your career? You'll work with technology experts to keep AT&T on the cutting edge of innovation, gain exposure to core IT operations and participate in learning workshops. You'll also tackle technical assignments in software development, process and requirements development, project management and technology operations. Awesome, right?

The best part is, you'll join a group of highly motivated peers – each with different IT skills and experiences. That means you'll have the opportunity to share ideas and learn something new every day.

## Inside Stories

***"The Emerging Technologies Track is full of support from peers and management to help you make the transition from academics to the corporate environment. In my experience, it allowed me to develop skills that translate into various roles throughout the company."***

Sheldon, Emerging Technologies Track Graduate

***"This track provides the connections you need to become a successful member of the AT&T family. You'll have many resources and people to rely on when seeking information or help. Now, I love being able to share my own knowledge and relationships with current participants."***

Tyler, Emerging Technologies Track Graduate
